Steve,

Thanks for the update. Will let Sr Mgmt know status. Ans thanks for your assistance and hard work. I appreciate it.

Dave-

All data packages but LV data has been sent to Neptune. They are working all weekend. They will send me draft reports as they complete analytical suites. I have received a draft report on several analytical suites which I have been trying to review, hope to do today. We (QA) have to review these reports before we can forward to Rick. I noticed this morning the LV data package is on the Las Vega drive. I tried but I cannot copy it to our L drive Pavillion folder.

Rick-

Here is the path to the Las Vega folder: \\Aa.ad.epa.gov\ord\LAS\Data\Priv\NRP_RD

Can you send me your updated spreadsheet to show what exactly has been rejected in the Las Vegas data so I can share with Dave the auditor? There is no point in doing an ADQ on rejected data.

I will email the LV data package this morning in increments so it will go through and not get hung up.

Thanks,

sv

Can anyone confirm for me that all Pavillion data packages have gone to Neptune? And that Neptune is working to turn ADQs around ASAP (48-hrs?)?
